trainor

Groupe **apave**

30 years experience

Trainor has been sharing vital knowledge about electrical safety for over 30 years. We have taken safety training to new heights through courses that are specifically tailored to the needs and desires of professionals in a broad range of business sectors. We offer the market the best eLearning courses, useful webinars and inspiring in-class tuition.

Our objective is simple. We want to enable you and your colleagues to perform your work safely and arrive home at the end of the day as fit and healthy as when you left in the morning.

Trainor are both CompEx Approved Training Provider and IECEx Recognised Training Provider.

Training for professionals. By professionals.

“Trainor’s strong reputation for delivering high-quality digital training aligns perfectly with CompEx’s commitment to innovation and improving accessibility. As a part of our global network, Trainor plays a key role in ensuring that people working in hazardous environments continue to receive the highest standards of training and assessment.”

- Huw Bement, Managing Director at CompEx

Effective and engaging

We offer a wide range of electrical safety courses tailored to different business sectors and specialist areas. Our engaging and educational courses have been developed by our own experts to provide a high quality learning experience.

We have the markets leading eLearning courses, which enable you to learn about electrical safety in a simple, effective and engaging way. We also offer in-class tuition, led by experienced instructors, who will explain complex topics very clearly, understandably and provide you with personal follow up along the way. In addition, we offer webinars that enable you to learn about electrical safety no matter where you are.

Areas covered:

-  Regulations and standards
-  Hazardous areas (Ex)
-  Electrical installation
-  Automation
-  HSE

The experts favourite

This means we know the regulations, the problems that may arise, and what your working day involves. We can therefore create a training program that best suits you and your team of skilled professionals.

Life-saving knowledge

We pride ourselves on delivering courses, advice, and solutions that are up to date and tailored to your needs. Several of our experts are active members of national and international standards committees and industry associations.

Training like training should be

We work hard to make it easy for you to learn about electrical safety to enable you to have a safer working day, fulfil the necessary requirements, protect assets and help save lives.

We do this by offering:

- The markets leading and most engaging courses
- In-class tuition with the industries best instructors
- Inspiring and useful webinars
- Cost-effective learning
- Lasting knowledge
- Courses and training tailored to professionals and their working lives
- Complete overview of the workforce

Mobile Application

The Trainor mobile app lets you take courses directly on your mobile phone or tablet - even if you have no internet.

The app is free to download and you log in using same username and password as at the web portal.

“The contents of Trainor courses are always fully up to date. Trainor has provided us with courses on a variety of topics for many years”

- Satisfied Customer

Learn wherever you are

eLearning is simple, secure and effective. All our courses are tailored to the needs of the different business sectors and specialist areas. You will therefore be presented with issues, situations and tasks that you will recognise from real life.

Our courses focus on practical issues and have been developed with two objectives in mind: ensure that students pass the final test and that they remember what they have learnt. Amongst other things, this means:

- Focus on real life situations
- Emphasis on the visual
- Engaging learning process
- Relevant
- Easy to like - easy to remember
- Lasting knowledge

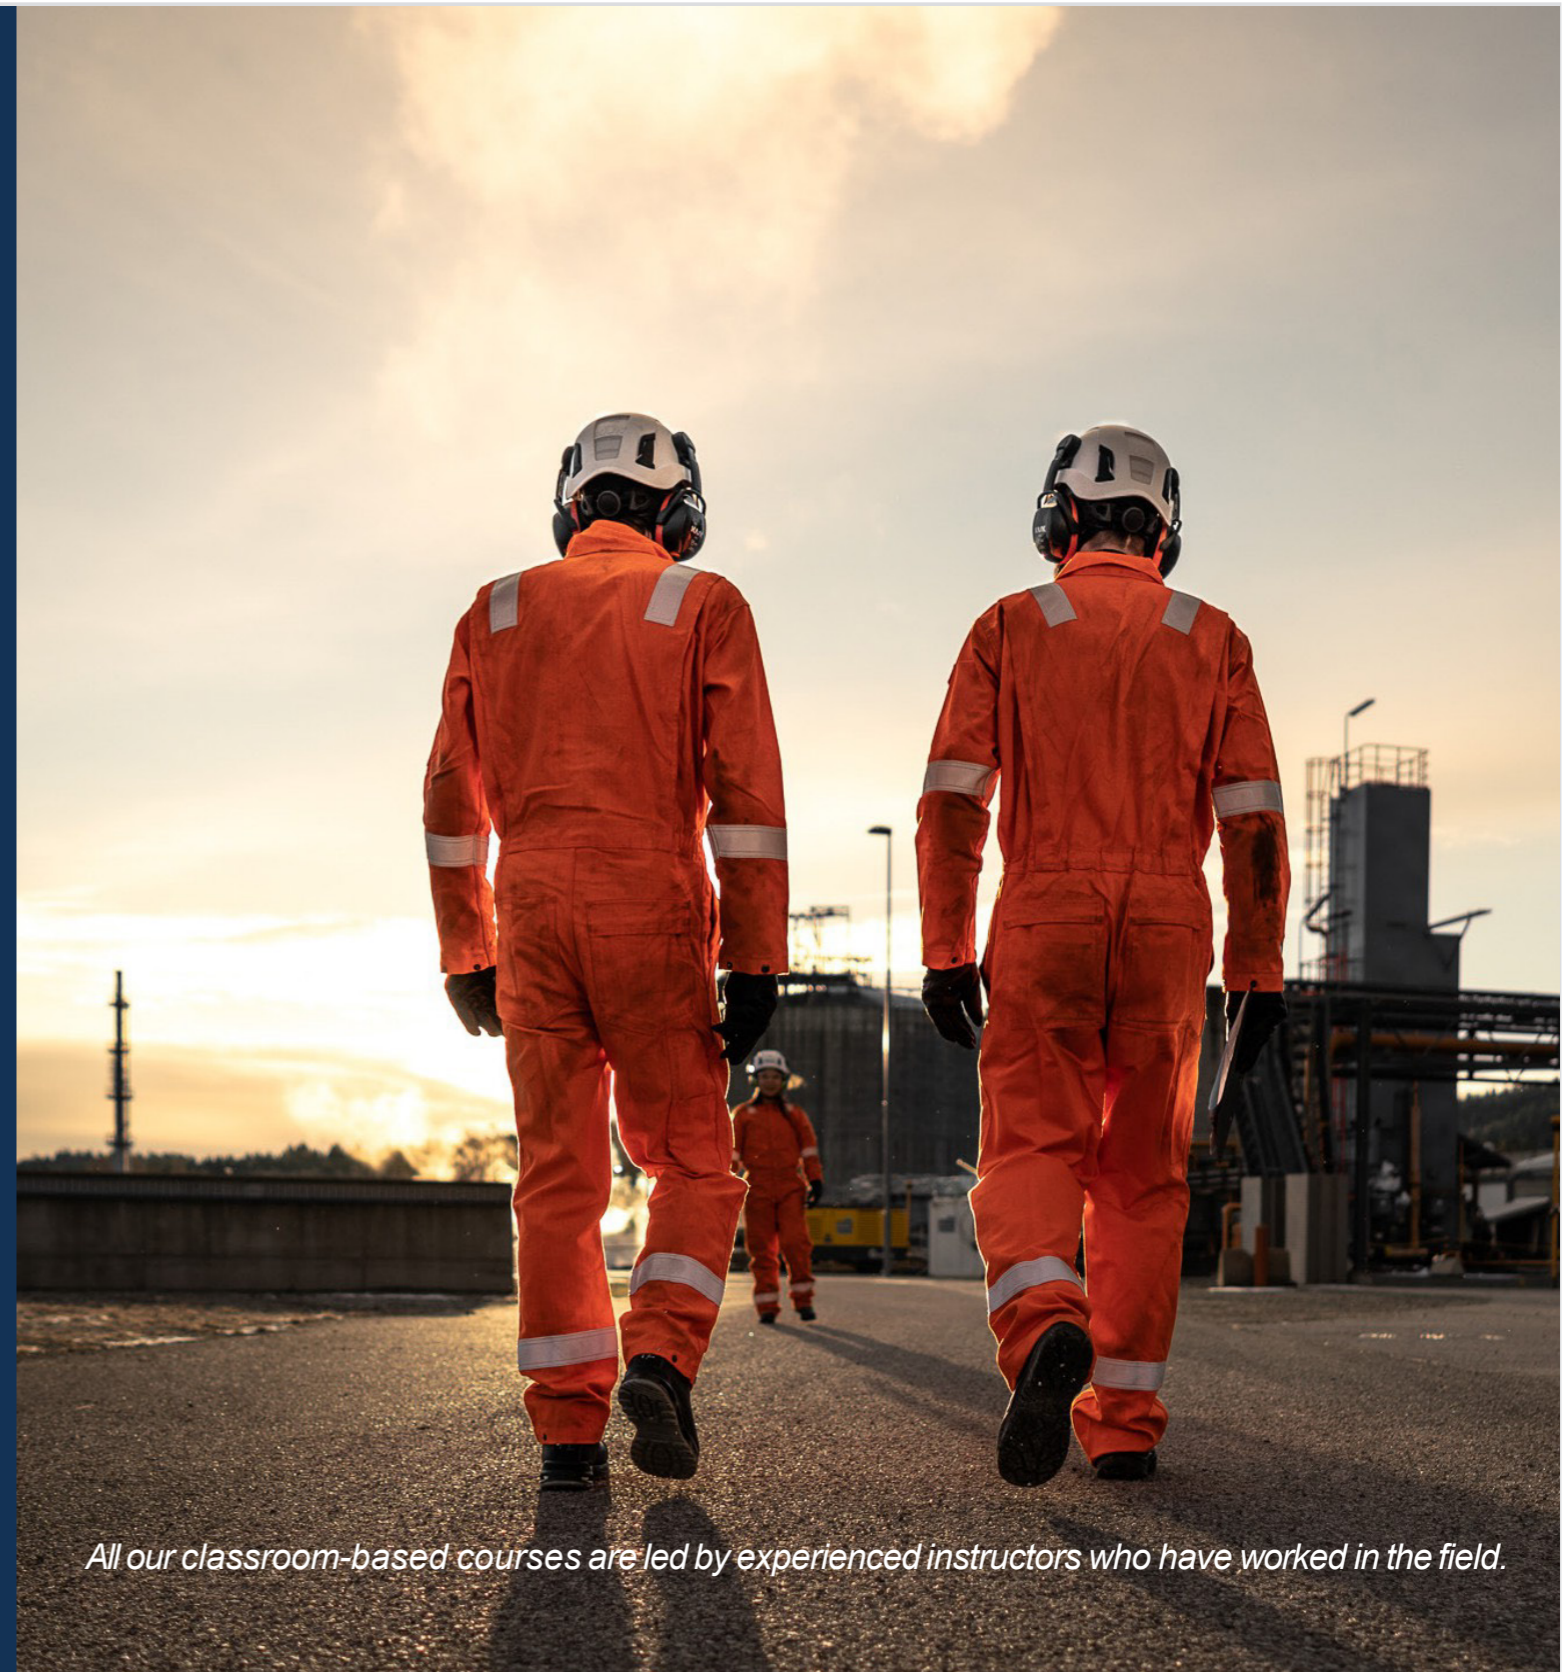

In-class tuition and webinars

All our classroom-based courses are led by experienced instructors who have worked in the field. The material may be complex, but they have the ability to explain it in a simple, understandable and informative way.

These courses are a unique way of learning about electrical safety while also receiving personal follow up along the way. Would you like a group of your employees to learn the same things at the same time? We offer specially designed in-company courses for you and your colleagues.

In addition to in-class tuition, our instructors hold a number of webinars. An easy and inspiring way to learn about electrical safety - wherever you are.

All our classroom-based courses are led by experienced instructors who have worked in the field.

“The instructor was first rate. Incredibly enthusiastic and able to hold the students attention”

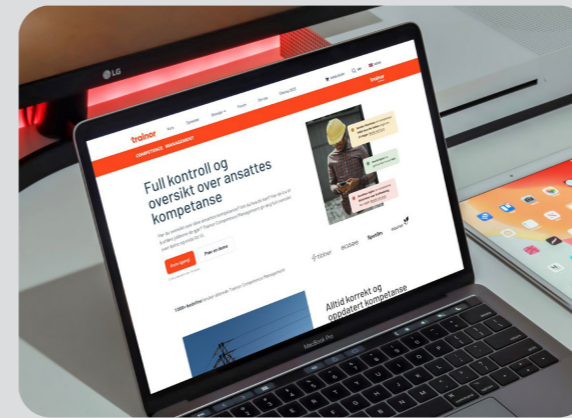

- Satisfied Course Participant

Effective learning through effective systems

For over 20 years, we have developed and upgraded our own learning management systems, which means we can provide the best training courses on the market. Our user-friendly solution can easily be integrated with your existing HR system, enabling your employees to take control of their own learning.

Your company's training manager will also have access to real-time information that provides a complete overview of your employees' level of competence. It goes without saying that we offer full data privacy and security.

Electrical Safety is important in all sectors and we cover them all!

Competence Management

Competence Management gives you a complete overview of your employees, their level of competence and the training courses they have completed. This ensures you always have the correct (and most up-to-date) level of competence you need to work in compliance with the requirements set by public authorities, insurance companies and industry associations.

API

An API enables you to simply, easily and effectively connect your in-company systems to Trainor. This ensures the automatic transfer of data relating to personnel, competence, orders, safety cards and course certificates.

Self-Service

We have a dedicated company portal where your employees can register and select courses from a predefined list. The courses are sent automatically to the employees and started at the click of a button. You can also specify which domains are able to register and buy courses, adding a further layer of security.

The markets most engaging eLearning courses

Learn wherever you are!

We utilise our instructors' expertise, as well as teaching methods and techniques that are familiar from films and video games.

The result? Learning that engages – and knowledge that is not easily forgotten!
